

Your voice and perspective matter!

Baptist Health is dedicated to increasing the safety and quality of hip and knee replacement procedures.

You'll receive emails (and maybe text/phone calls) from Baptist Health **before** and **after** your surgery with surveys that will help our care team understand your pain and mobility prior to and after your elective primary hip/knee procedure.

Your input helps us track your progress and improve care for others, too! It only takes a few minutes, so we appreciate you taking the time to answer these questions.

Please note, you'll always have the option to opt-out at any time, but **we hope you won't** because your feedback is important and we want to understand how you are progressing.

Thank you in advance for sharing your care experience with us. It is a privilege to provide your care. We appreciate you choosing Baptist Health!

The emails from Baptist Health will look like this:
